PROFILE SUMMARY

Bachelor of Technology (B.Tech) graduate in Computer Science and Engineering with a strong foundation in full stack web development, particularly within the MERN (MongoDB, Express.js, React, Node.js) stack. Proficient in both frontend and backend technologies, with hands-on experience in building scalable and responsive web applications, as well as integrating third-party APIs. Successfully completed two major projects and multiple minor projects demonstrating practical expertise in full stack development

SKILLS

Programming Languages: JavaScript, HTML5, CSS3
Frontend Frameworks/Libraries: React.js, Bootstrap, Tailwind CSS, Material UI, EJS
Backend Frameworks/Libraries :: Node.js, Express.js, Socket.io
Databases: MongoDB, SQL
Concepts: MVC Architecture, REST APIs, Form Validation, Error Handling, Authentication (JWT, bcrypt.js)
Tools & Platforms: Git, GitHub, Postman, Axios, Docker (Basics), Cloudinary, Mapbox
Deployment Platforms: Render, Vercel, Netlify, AWS

PROJECTS

Airbnb: A Global Stay Network, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB

- Built a dynamic travel and rental platform integrating real-time user listings and payment systems.
- Implemented user authentication, property listing, booking, and review functionalities.
- Utilized form validation, modular code practices, and interactive UI elements for seamless navigation

Zerodha – Stock Trading Platform, JavaScript, React, MongoDB

- Built a full-stack trading platform with real-time market data, enabling users to buy/sell stocks instantly through live APIs and WebSockets, along with personalized portfolio tracking and interactive analytics.
- Implemented automated profit/loss tracking and real-time updates, providing users with instant insights into their investment performance and facilitating quick decision-making.

EDUCATION

Bachelor of Technology in Computer Science & Engineering (B.Tech), 2022 – 2024
Biju Patnaik University of Technology, Odisha 

Diploma Engineering, Central Institute of Petrochemical Engineering & Technology  2019 – 2021

INTERNSHIP/TRAINEE

Software Development Trainee(Full stack-MERN), APNA COLLEGE  10/2024 – 03/2025

- Completed a 6-month intensive full-stack development training focused on the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Built and deployed two major industry-based projects simulating real-world requirements, including authentication, APIs, and responsive UI.
- Gained practical experience in debugging, performance optimization, and integrating frontend-backend systems.

Web Development Intern, Mentornix PVT LTD.

Full stack Web development Intern, Octanet Services Pvt Ltd.

CERTIFICATES

• Full Stack Web Development – MERN – Shradha Khapra 

• Web Development Internship

• TCS ION
